Animal Husbandry Division

U. S. Department of Agriculture

U. S. RECORD OF PERFORMANCE BREEDERS

The breeders listed on the following pages are participating in the U.S.R.O.P. (U. S. Record of Performance) breeding stage of the National Poultry Improvement Plan. At the time this mimeograph was issued 317 breeders were participating and they had a total of 396 flocks¹ being trapped under the supervision of their official State agency.

<u>Breed and Variety</u>	<u>No. Flocks</u>	<u>Page</u>
Single-Comb White Leghorns - - - - -	198	2
Single-Comb Rhode Island Reds - - -	56	10
Barred Plymouth Rocks - - - - -	48	12
New Hampshires - - - - -	41	14
White Plymouth Rocks - - - - -	32	16
White Wyandottes - - - - -	8	17
Buff Orpingtons - - - - -	3	18
Black Australorps - - - - -	2	18
White Minorcas - - - - -	2	18
Rose-Comb Rhode Island Reds - - - -	1	18
Rose-Comb Rhode Island Whites - - -	1	18
Brown Leghorns - - - - -	1	18
Buff Plymouth Rocks - - - - -	1	18
Jersey White Giants - - - - -	1	18
Lamonas - - - - -	1	18

The status of pullorum control for each flock is indicated. When no class is indicated it does not necessarily mean that the flock is not tested for pullorum disease, since some breeders do private testing and still others have their flocks tested under State supervision but not in accordance with the requirements of the National Poultry Improvement Plan. Additional information regarding these flocks may be obtained by writing to the breeders or to the official State agencies in their respective States.

¹When more than one breed and variety is under U. S. R. O. P. supervision on the same farm, each breed and variety is considered as a separate flock.

SINGLE-COMB WHITE LEGHORNS

<u>Name and Address of Breeder</u>	<u>U. S. Pullorum-Control Class of Flock</u>
Alabama Poultry Farm, Notasulga, Ala.	Tested
Alampi Breeding Farm, Williamstown, N. J.	Tested
